Mrs. E.F.Peterson
2936 West St.
Visalia, Calif.

Dear Ora Kay.

It has taken me far too long a time to get this little bit of information to you But but at last here it is for what it is worth: Booh of my da ghters received what they feel to be conciliatory replies to their "impassioned pleas" One was to Evisonand the other to Roy Atwell Asst.Sec. of Interior,who also assured me,thru a subordinate, that thry would take cognizance of my remarks.

It so happens that a friend of mine--a professor of History at Principia College in Elsah, Illinois is an active mem ber of the organization concerned with creating "Landmark" cOmmunities. Our cabins just wouldn,t qualify But Dr.Hosmer made the suggestion to me that we try to seek the special status as a small community. As a direct decendent of BULAH, we could have a good chance for accaptance. I will soon be in touch with Hosmer and I am sure that he will be glad to put us on the right track.

Deendie and I are bo h eager to meet with you in Visalia in February; but we cant be certain from this distance we both seem to lead very busy lives....
But we do want to be there

With best wishes for a pleasant Spring.

Sincerely,

MacGregor Graham
